While some states undoubtedly have wisely conserved certain of the lands and natural resources turned over to them by the nation, the story has too often been the acquisition of these lands and resources by special interests or individuals without adequate recognition of the public interest. There is no policy which it would be wise for any state to adopt with respect to these matters in the adoption and enforcement of which it cannot be supplemented and assisted rather than retarded, by the retention in federal hands of the powers and the property now held by the nation It is precisely this policy of practical co-operation which should be put into effect. There is no real conflict between the nation and the states upor

# It's Better to Be Safe Than Sorry

WHEN you leave your home with \$15 or \$20 to put into a New Suit or Overcoat you had better be sure of your store. It pays to go to the right place. We've done our best to make this the right place to get Good Clothes, and though neither we nor anyone can give something for nothing, we believe we can give you more real value at \$15 or \$20 than any store in town; and one thing you can be sure of -Reliability. You're certain of your money's worth here. Safe in buying anything we recommend. And "It's better to be safe than sorry." We don't want to build your suit to order for \$15 to \$18. We can't, nor could anyone else give you much for that. But we do want to sell you better clothes than that-ready to put on, and made as they ought to be - and know that when you leave here you'll come again for more some day.

Hart Schaffner & Marx Suits and Overcoats from \$18.50 to \$25.00; Clothcraft, all wool, from \$10 to \$18.50, mean satisfied customers.

They are made to satisfy you, and we'd rather sell them to you, knowing you'll like them and say a good word for them and for us, than sell you something on which we could make a larger profit once. Our way pays better in the end.
